Fall 2025

Hello, everyone!

Fall production season has begun, and our product line is growing. We have 30+ new items in our fall catalog, including adding purple to the color selection. We understand that purple has become a popular color for Halloween decorating. We are excited to hear what you think of it. To create excitement with your customers, adding new items each season will definitely bring them back.

For instance, mushrooms and farm animals continue to be a popular trend. We have also noticed an increasing demand for items that light up, so we have added quite a few new designs that light up for the Halloween season.

Thank you to everyone who placed their orders early for the spring catalog. We encourage you to place your orders early for this fall catalog, as well. That will help us have more production time for our very popular winter/Christmas season.
